

Weekly Seminar

郝建华

The Hong Kong Polytechnic University

Time: 4:00pm, Dec. 14, 2015 (Wednesday)

2016 12 14

4:00

Venue: Room w563, Physics building, Peking University

563

Abstract

The ultimate goal of making nanoscale electronic and optoelectronic devices greatly stimulates atomically thin material and heterostructure research.
