

Weekly Seminar

**Topological Surface States in the Heavy Fermion Metals and Superconductors:
UPt₃ and β -YbAlB₄**

Andriy Nevidomskyy
Rice University, Houston, USA
Visiting Professor, University of Tokyo, Japan

Time: 4:00pm, May 6, 2015 (Wednesday)

时间: 2015年5月6日 (周三) 下午4:00

Venue: Room W563, Physics Building, Peking University

地点: 北京大学物理楼西563

Abstract

The concept of topological states of matter has captured the imagination
